

Alexander Price, Product Designer

I'm a designer from Austin with a strong technical background. I've grown teams, worked often with engineers, and made robots play dress up.

Evaline ————— React.js, GraphQL, Figma, user research	Designed and implemented two apps (enterprise + consumer) with a team of 2 developers in 8 months. Branded company, collected user feedback, hired folks.
Playbook ————— React.js + Next.js, Figma, Firebase	Building a D&D character sheets app, built on React and Firebase. Initially a project to learn React, it's turned into a type/color/development playground.
Gesher Group ————— Team-building, business consulting	Joined board of 40-person consulting team my first year, then worked on bizdev. Created budgeting system as VP, and started in house, student-run software team.
VEXvolt ————— Solidworks, patent, sales, 3d printing	Designed and patented a voltmeter for VEX robotics competition, then 3d printed, packaged, and sold online on a custom page. Patent no. us62317384.
Other activities ————— Robotics, fashion, woodworking, D&D5e	President of FRC robotics team in high school, led robot fashion show with NAO anthropoid robots, wrote code for a UT Austin's psychology experiment.

What's next?	I'm looking for a team that values design, user feedback, and making decisions with data. I'm free to start early October, 2017. — alex@alexprice.co
